

To whom it concerns,

I am writing this letter to recommend the Colorado Institute of Bail Enforcement, Ltd. and it's Director J.P Sheets as a professional course provider for the Colorado Bail Recovery Agent Certification. The professionals and expert instructors at this institute exceed the ethical standard found in this industry today in my opinion.

As a member of the Bail Bonding Industry, I know how important it is to find well educated, trained and ethical Bail Recovery Agents to assist me in working on my cases. I know that the Colorado Institute of Bail Enforcement, Ltd. strives to train Agents with that mandate in mind.

By providing additional continued educational courses, they mark themselves as an organization that truly cares about the individuals working in this industry and prove that they are here to help and teach it right and that they stand by their word as a school that cares.

Thank you,
