

Dear Colorado Institute of Bail Enforcement,

I am very satisfied with the course. As I stated a few times, I would much rather had attended the Classroom Course, but couldn't fit it into my schedule. It covered much more of the law/legalities of Bail Enforcement than I got from two (2) other courses that I took. (one was an on line, and the other was a Bounty Hunter training manual that I got from the NIBE/NABEA due to the class being canceled back in 2003...minimum of 10 students was required) You can use this as my testimony, that I am very satisfied with the course, and will recommend it over ANY other course offered in Colorado.(and as you know, I checked a few!)

Thank you,
Mike Petrie
